

Salon is Unique Mobile Applications

Salon is unique mobile applications for salons, hairstylists, beauty services etc. Users can search for various Salons or freelance Hairstylists on the app. Salon App is for beauty service booking and searching salons. Users can Sign up either as Consumer or as Company/Freelancer to book or provide services via the app.

Users can search salons as per their locations. Freelancers or Salon companies can manage their service requests and listings in the backend. The Salon app lets the companies display their services online on the app and accept or reject a booking on the app. The consumer can book a service online and pay for the service beforehand itself. This helps in boosting market presence and brand awareness in the market. Both the consumers and companies can rate each other based on the services or behavior.

INNER SCREEN

USER/CUSTOMER SCREENS

LOGIN & SIGN UP

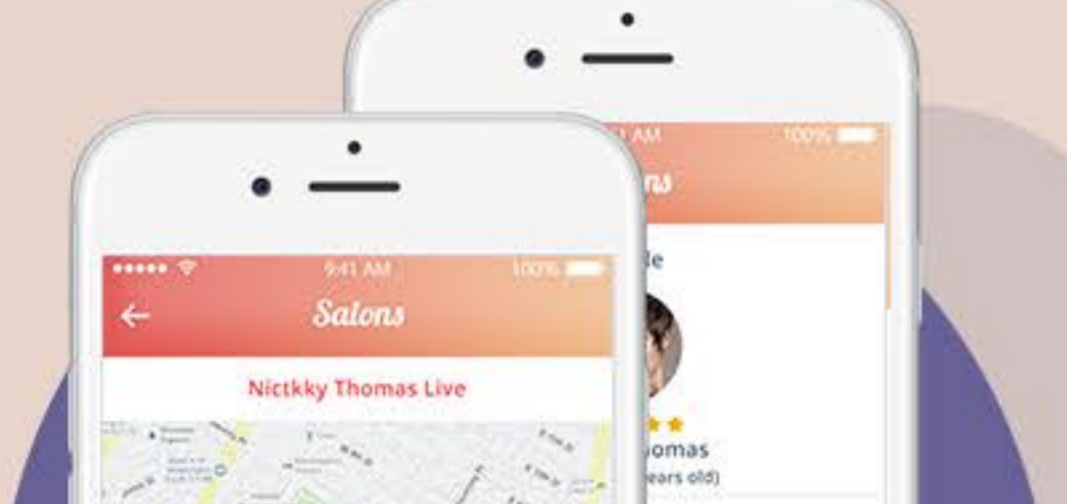

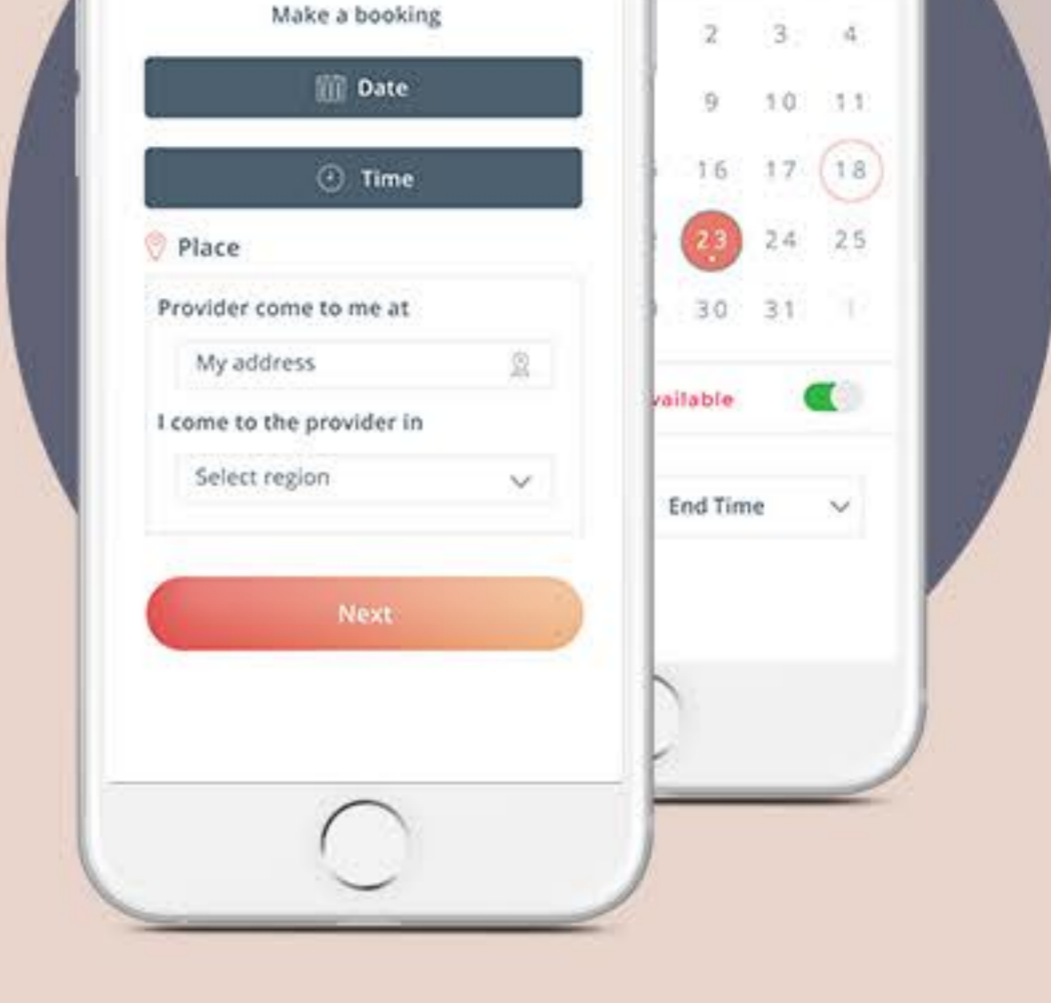

Now people can search for various beauty or salon services online where they can see various listings for different kind of services with the app.

We develop apps like Syppo that help the hairstylists grow their presence in the market and build a consumer base. The app for hair salon appointments is a greater way for salons to manage their business and appointments.

The salon app builders know everything about the needs and requirements of a hairstylist or a salon.

BOOKING CALENDAR
